

Chief Okemos Sportsman's Club

Class Opportunities

Introductory Level - NRA Basic Pistol

This is a class for people new to handling hand guns. No prior experience is required. You do not need to own a gun to attend. We will spend time talking about what handguns may be better choices for the way you want to shoot. All written materials are provided. The program includes lectures and time shooting at close range. Very limited physical activity. This is an 8-hour class.

CPL - NRA PPITH

This class requires some prior knowledge of handguns. No particular skill level is required, you must already know basic handgun safety and you will do better if you have had some experience shooting. You do not need to own a gun to attend. We will spend time talking about what handguns may be better choices for self-defense or concealed carry. This is one of the courses the State of Michigan will accept as qualified training if you decide to apply for a Concealed Pistol License. The program includes lectures and time shooting at close range. The class is less about shooting and more about the laws and regulations surrounding a handgun in your possession when you are not at home. Very limited physical activity. This is an 8-hour class.

Classes are taught by experienced, certified, and insured instructors. Classes are \$45 per class for club members and \$100 per class for nonmembers and will begin in November. All proceeds go to club programs.
